Use the maps provided and consider the below to help plan parking and walking routes and ensure a safe journey.

- Some of the car parks don't have road markings, traffic separation or signage, or may have uneven surfaces
- Children may not be seen easily by drivers when moving near, or between, vehicles
- The roads are narrow in places, some don't have pavements and may have blind corners
- Traffic volume may vary from day to day

To help with the above, please consider this advice:

- Closely supervise your child, particularly near moving vehicles and near the entrance/exit point of the travel hub
- Parked vehicles may obstruct your view, be careful and check blind spots
- Wear high visibility clothing, consider using high visibility backpack covers and lights, particularly in the darker months
- Walk in single file where possible, staying in control of your child and leaving room for others to pass
- It is often safer to walk facing oncoming traffic, but consider the road layout and other conditions
- If the road has a pavement or marked path please use them as you would normally, considering pavement conditions/obstructions.
- If walking at the start or end of a group, call out when cars are approaching to ensure others are aware of moving vehicles

If you have specific concerns about a particular route or parking arrangement, please let the school know. This leaflet also includes guidance specific to each location/route

Please note: The above list represents general safety advice. This information is given to assist, however, parents / guardians are responsible for their children outside the school boundary and the schools accept no liability for activities outside school, including participating in Walking Hubs.

La Mare De Carteret Primary School

Walking Hubs

There are so many benefits of walking to school…

- Spending time chatting about your day with your family or your friends
- Reduction in traffic on our school site
- Improved air quality due to less vehicles around our school site
- Good exercise, helping to keep us healthy

Use this leaflet to help plan your journey to and from school each day, leaving your vehicle at home, or at one of our walking hubs.

Grandes Rocques Carpark to School

Time: 10 mins

Distance: 0.5 miles or 800m

Approximately 1200 steps (12% of your recommended daily steps)

A direct route to school which takes you all the way along Grandes Rocques Road along the pavement. You'll be met at the crossing into school by one of our caretakers who will help you cross the road safely.

Pump House Carpark to School

Time: 6 mins

Distance: 0.35 miles or 600m

Approximately 750 steps (7.5% of your recommended daily steps)

This is a really safe, peaceful route into school which takes you all the way down the nature trail, avoiding all the traffic on the roads. It's a nice quick route if you're in a bit of a hurry!

Cobo Village Carpark to School

Time: 8 mins

Distance: 0.45 miles or 700m

Approximately 875 steps (8.8% of your recommended daily steps)

This route is slightly longer than the above route however it's perfect if you need to dash into Iceland! A great alternative if the pump house carpark is full, and again takes you along the quiet nature trail.

Port Soif Carpark to School

Time: 15 mins

Distance: 0.9 miles or 1450m

Approximately 1700 steps (17% of your recommended daily steps)

A lovely route starting at beautiful Port Soif beach. Port Soif Lane doesn't have a pavement however it is a relatively quiet road. La Rue a Ronce and Rue de Galaad both have pavements, and you will be met by our friendly caretaker who will help you cross the road on arrival at school.
